

Adaptive Suite

The most widely adopted and user-friendly set of tools for corporate performance management (CPM) on the market—all built from the “cloud up”

Make Better, More Informed Decisions, Faster

Technology, complexity, and speed weren't meant to be our enemies. They should be allies, provide an opportunity to grow, and help us compete in ways we never imagined. All it takes is the right partner. At Adaptive Insights, we're committed to making difficult and complex business decisions feel intuitive.

The Adaptive Suite is the world's leading cloud CPM suite. The first and only pure-play cloud solution to be positioned by Gartner as a Leader in its 2016 Magic Quadrant for Strategic CPM Solutions, the Adaptive Suite delivers unified planning, reporting, consolidation, and analytics solutions that are modern, powerful, and intuitive for all types of business users. The Adaptive Suite is transformational at its core, with integrated analytics, collaboration, and accessibility—via a simple web browser, even on your mobile phone. Making better business decisions has never been easier.

THE SUITE:

- Reduces time spent on budgeting, planning, consolidation, reporting, & analytics by 50-90%
- Increases cost efficiency by more than 75% compared to legacy on-premises solutions
- In use across all types of companies, from midsize to enterprise, with more than 3,000 customers in 85 countries
- Consistently achieves top satisfaction ratings according to leading industry analysts and surveys

Adaptive Planning

Adaptive Planning provides comprehensive budgeting, planning, and forecasting that's proven to reduce cycle times by up to 90%. With an incredibly intuitive “Excel-like” web application, as well as a pure Excel interface for those who prefer it, it's easy to collaboratively plan and forecast revenue, expenses and headcount, create rolling forecasts, and more.

Adaptive Consolidation

Cut time and resources spent closing and reporting. With a real-time consolidation engine, Adaptive Consolidation includes journal entry management, intercompany eliminations, account reclassifications, and even collaborative close process management—all as an easy-to-deploy cloud service.

Adaptive Discovery

As a patent-pending visual analytics platform, Adaptive Discovery is completely integrated into Adaptive Planning, simplifying the ability to visually uncover insights into financial, sales, and operational performance. Intuitive dashboards, interactive scorecards, and what-if modeling make it easy for every business user to understand results and trends.

Adaptive Reporting

Adaptive Reporting provides comprehensive financial, management, board, and transactional reporting, all available through an easy-to-use drag-and-drop report builder. Our web-native report builder can be used for ad-hoc management reports, and Adaptive OfficeConnect can be used to generate presentation-quality board reporting across Microsoft Excel, Word, and PowerPoint documents with the click of a button.

Adaptive Integration

With a powerful self-service integration platform that connects on-premises and cloud investments to the suite, Adaptive Integration empowers the business user by providing a comprehensive range of connectors to leading ERP, CRM, proprietary, and data warehouse sources. It's easier than ever before to turn data into insight.
